Please note:

Diabetes Australia has an obligation not to supply product above the national levels of average use. These levels are **90 cannulae/needles and 90 reservoirs/cartridges per 180 day period**. Registrants who require supplies in excess of these amounts may complete an exemption form which is available from Diabetes Australia. Please note that NDSS products have a use by date, so, to avoid unnecessary wastage, take care not to over-order these items.

Orders can be made over the counter at your local NDSS Access Point. Most community pharmacies are NDSS Access Points. To find your nearest Access Point, please phone 1300 136 588 or visit ndss.com.au.

Access to subsidised insulin pump consumables is dependent on meeting the Commonwealth's criteria and completion/submission of the IPC Assessment form – order will not be accepted unless this condition is met.

Privacy

Diabetes Australia is governed by the Privacy Act 1988, which sets out how we handle your personal and sensitive information. A copy of our current Privacy Policy is available at ndss.com.au or by contacting 1300 136 588.

¹ This column indicates manufacturer recommended pump for use with listed consumable.

² If a 'Luer lock' connection type is indicated, the product may be compatible with other pumps. Please note that the pump manufacturer may decline to provide support (or honour warranties) in the event that problems arise while utilising a pump

³ 'sets' indicates equal number of cannulae and lines, e.g. '10 sets' = 10 cannulae + 10 lines.

⁴ Please note that there are no additional concessions on subsidised insulin pump consumables.
