

## Lancet and Lancet Devices

### Which lancet matches which lancet device?

With all the different shapes and colours of lancets, it is sometimes confusing to figure out which lancets are compatible with your lancet device. The following guide is here to help.

	Autolet Impression	FreeStyle	Contour Microlet	CareSense CareLance	One Touch Verio	Omnitest Braun
Lancet Device						
	The model specific lancet devices above are compatible with the individual round base lancets shown below					Round base, shorter length
Lancet

### Single Use Lancets (medical use only)

**Please note:** You may be given a single use lancet from a hospital or clinic to get you started with monitoring. Single use lancets are designed for use in a medical setting to reduce needle stick injury occurring to clinical staff. For this reason, single use lancets are significantly more expensive and therefore not recommended for use by clients with diabetes on an everyday basis.
